Made in Malaysia

Founded in 1999 and publicly listed (SSE: 603180), GoldenHome delivers comprehensive one-stop custom home solutions across a diverse product range—including kitchen cabinets, wardrobes, vanities, doors, and wall panels. We are dedicated to providing affordable luxury customized furnishings to create the true joy of coming home.

GoldenHome has established 7+ intelligent manufacturing factories worldwide, with over 1.5 million square meters of manufacturing space, delivering an annual capacity of over 2.5 million sets of cabinetry with industry-leading automated precision.

GoldenHome boasts a robust global network of over 4,000 retail galleries, complemented by proven expertise in project contracting and delivery. Our footprint spans 7 key markets: the U.S., Canada, Australia, Thailand, Malaysia, Indonesia, and the Middle East Through local subsidiaries and service centers, we ensure rapid response and localized support for our partner and client.

MELAMINE

The best-selling door panels fit various decoration styles, offer the highest cost performance, and are a major competitive force in the market. With comfortable color schemes and a rich variety of colors, solid colors, wood grains, and stone grains have become the "top choice" of young people nowadays.

PET

Originating from Italy, the skin sensitive door panel is known as the "blue blood aristocrat of luxury goods" in the industry. It has bright colors, a smooth surface with small color difference, and a strong visual sense of three dimensionality.

MEMBRANE PRESSING

Equipped with a 1.3 million RMB imported Wemhöner membrane press, our 3D membrane pressing technology seamlessly integrates the door surface and edges into a single unit. This eliminates the need for secondary edge banding, effectively preventing delamination and moisture issues over time. Durable and scratch-resistant, it offers excellent surface flatness with a refined, high-end texture.
