NEW RTA  
COLLECTION

J-Handle, Slim Shaker, Walk-in Closet

GoldenHome

Welcome to

# GoldenHome New Products

## GoldenHome New RTA Collection

The GoldenHome RTA new collection 2026 emerges as a tailored response to the evolving needs of American households, blending timeless American design aesthetics with the practicality of Ready-to-Assemble functionality. Rooted in our commitment to quality, sustainability, and market adaptability, this collection brings game-changing innovations that redefine convenience and style for kitchens, vanities, and walk-in closets across the nation.

# New J-Handle

Melamine

The J-Shape profiled handle melamine door features double-faced melamine finish, with its signature J-Shape handle precision-machined and finished with seamless curved edge banding.

Designed for American transitional interiors, its J-shape handle delivers ergonomic confort with no sharpe edges while the profiled handle craftsmanshipensures a smooth, gap-free curve that elevates minimalist elegance.

GoldenHome# NEW RTA COLLECTION

# Slim Shaker

Melamine & Thermofoil

We blend the signature narrow rail-and-stile minimalism of transitional design with cutting-edge modern craftsmanship—compromising neither cost-effectiveness nor structural stability.

Melamine Slim Shaker: Features stepped edge machining, a sleek 0.59-inch (15mm) edge profile, and precision 45° mitered joints, this door is fully edge-banded for a seamless finish—paired with a perfectly flat back to ensure optimal hardware compatibility.

Thermofoil Slim Shaker: With routed-and-moulding craftsmanship, it not only retains the thermofoil's seamless look but also emphasizes the sharp linear definition that defines the Slim Shaker style and enhances structural stability

# LITE SERIES

RTA Walk-In Closet

Lite Series is developed based on existing Premium Series Closet, this lighter product line embodies not just the "less is more" philosophy, but also unlocks the potential of "less yet more".

Through optimized product structure, it achieves significant reductions in both weight and cost. While the number of SKUs in the series has been streamlined, the design versatility remains uncompromised.

Compliant with American building standards and ergonomic design principles, it upholds Goldenhome's consistent commitment to precise craftsmanship—bringing more possibilities to bedroom storage spaces.
