Made in Thailand

Founded in 1999, GoldenHome is one of the world's leading manufacturers of high-quality cabinets for kitchens, bathrooms, laundries, and wardrobes.

As a publicly listed company (SSE: 603180), GoldenHome operates ISO9001/ISO14001, FSC, ANSI/KCMA, Green Tag and CARB2 certified factories that produce an average of 10,000 cabinets daily, serving millions of families across 30 countries.

GoldenHome's global network includes more than 4,000 dealer and franchise locations spanning Australia, Asia, North America, and other regions. The company has established 7 professional production bases worldwide, located in China, Thailand and Malaysia, with over 900,000 square meters of manufacturing facilities and an additional 600,000 square meters under construction.

To better serve Thailand markets, GoldenHome has set up branches and factories in Samut Prakan and Rayong.

Lacquer series

Lacquer is regarded as a modern technique of wood finishing that is particularly used on high-end furniture. GoldenHome Lacquer Cabinets have 4 layers of lacquer finish with 22 processes of manufacturing and are easy to clean & maintain. High gloss or matte lacquer finishes are also available.

Y60

Design inspiration

Y60 boasts subtle gloss and extremely realistic metallic texture, which together create an Italian-style luxurious private space; it is also equipped with 22 original lacquert processes to build extraordinary quality. Moreover, it features highly full and flawless gloss, outstanding color without color difference, and excellent texture—fully tapping the potential of colors to endow the space with more diverse expressions.

F67

Design inspiration

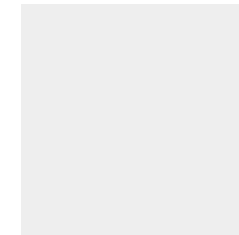

F67 adopts metallic lacquer(used for luxury cars), and its lacquer undergoes a 22-step process with strict checks at each step to ensure perfect quality; it has one-piece molding door style with smooth lines and a glossy surface that is easy to clean, along with original lacquer gold tracing technology to prevent the gold lines from peeling off over time, and pays meticulous attention to every detail to pursue "excellence" in the "gold" elements.

F60

Design inspiration

F60 features delicate, full-color lacquer paired with dark wood-grain cabinets for a neat overall space, while its soft-gloss skin-feel surface adds a warm home atmosphere; it also comes with arc streamline self-milled handles in multiple combinations to create soft curved aesthetics, original organ grille panels for decorating back panels and drawer fronts to enhance delicacy, and various specifications of arc components for better comfort and safety, with the arc element as the core to achieve consistency in color and craftsmanship, shaping a sense of spatial rhythm.

PET & UV series

GoldenHome PET & UV cabinets are moisture resistant, acid, and alkali tolerant. There is high glossy, matte, & vivid color finishes for your choosing. It is easy to clean, antibacterial, and safe for direct food contact.

M50

Design inspiration

M50 combines skin-feel PET with dark wood-grain cabinets for a neat space, and its soft-gloss skin-feel surface builds a warm home atmosphere; it applies consistent color and craftsmanship throughout the whole house to create modern products with a strong sense of spatial rhythm, and takes the arc element as the core, with various specifications of arc components reasonably used for better comfort and safety.

M30

Design inspiration

M30 uses low-saturation colors in four new shades to create an Italian-style minimalist and luxurious space, with bright UV panels that have a translucent premium texture, flat-panel door style to highlight the minimalist tone, and an integrated whole-house design that allows infinite style extension, making it suitable for various types of spaces.

Membrane Pressing Series

Membrane Pressing Series

Equipped with a 1.3 million RMB imported Wemhöner membrane press, our 3D membrane pressing technology seamlessly integrates the door surface and edges into a single unit.

This eliminates the need for secondary edge banding, effectively preventing delamination and moisture issues over time. Durable and scratch-resistant, it offers excellent surface flatness with a refined, high-end texture.

M45

Design inspiration

M45 blends "Snow Velvet" and "Black Velvet" in premium molded PET panels, retaining classic French framed doors and brass hardware through a striking contrast. The integrated open-space layout with recessed lighting enhances spatial transparency, creating a modern French aesthetic that brings a minimalist yet luxurious tone.

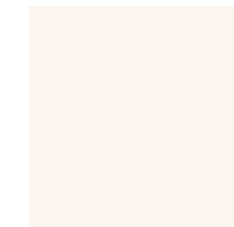

Door Panel Selection

M40

Design inspiration

M40 features premium molded PET panels in a Cloud White shade, perfectly blending classic French framed doors with brass hardware details. The integrated open layout with partial glass doors enhances spatial transparency, avoiding heavy carvings to strike a seamless balance between modern French elegance and comfortable, cozy living.

Melamine series

GoldenHome Melamine Cabinets are made from environmentally friendly materials.

Melamine cabinets are available in a wide variety of styles and colors with significant cost advantages. The colors come in solids or in multiple shades of faux wood grains.

There are also more colors that can be customized.

M27

Design inspiration

M27 adopts an overall four-panel framed cabinet door design to add three-dimensional sense and layering to the doors, with lines running through the entire space, and is matched with decorative elements such as small copper arc handles to enhance both aesthetics and layering; it uses ABA sandwich technology for laminates and column lines to better highlight the line outline and ensure strong load-bearing capacity, has distinct wood texture with strong three-dimensional sense to present the simplicity and calmness of the mid-century modern style, paired with flexible curved lines of the "twists and turns" texture that endows the fabric with unique artistic beauty (the interlaced lines are like nature's ingenuity, elegant melodies and time's traces), and combines natural rattan and glass elements to meet market users' style preferences while being easier to maintain than real rattan.

M25

Design inspiration

M25 awakens the yearning for nature with the light of dawn to realize a relaxed and textured minimalist lifestyle; it has vibrant color matching paired with low-saturation Morandi color system, making it the first choice for young people with personalized needs, and its wardrobe door panels adopt a straight-edge design, mainly using handle-free design with single-hole small handles, combined with special-shaped door panel design to add fun to simplicity.

M20

Design inspiration

M20 has a matte surface with realistic wood-grain texture and offers colorful patterns, including mixed matching of wood-grain and solid colors for more variations to meet diverse styles; it features an integrated kitchen and dining area that focuses on family interaction, creating a space for companionship.
